5 September 1984

OC-MLS WEEKLY STAFF NOTES
FOR WEEK OF 27-31 AUGUST 1984

25X1

2. A data base has been created as a working tool to track and coordinate adjustments, realignments, and PRA requirements of 98 FANs in the FY-85 Operating Budget.

3. Close coordination continues with all FAN Managers to ensure that funds and PRA will be committed or obligated before the Office of Logistics' deadline dates. The "float" of funds and PRA between OC/Budget & Finance and the Office of Logistics is also being tracked.

4. C/PPBG is working with OC/ED and OC/FND to explore procurement of satellite capability for a new Base Station site.

- b. Total 1984 Requirements - 275
Completed 144
- c. Pending Requirements by OC Divisions:

AMD - 1	ED - 8
CSD - 17	FND - 58
DND - 93	

d. Requirements forwarded to OC Divisions which need status update - 19.

e. Requirements pending a first response - 10.

7. The cable summary of our January 1984 survey on system administration duties and TCO assumption of same has been returned to IMS/FSG with a request that the cable be amended to acknowledge that it is an IMS and OC goal to locate the CRAFT common equipment [redacted] A meeting with IMS on the general subject of CER selection criteria is scheduled for 5 September.

8. On 5 September, FND and IMS/FSG will meet to discuss the FY-85 foreign CRAFT installation schedule. FND has formally advised IMS/FSG that FND will have problems meeting the projected schedule of [redacted] This is due in part to the larger size of systems, and the anticipated inclusion of new features like uninterrupted power systems and the WANG/TERP interface.
